Quarterly Sales Report

This report summarises sales results for the third quarter. Figures are in thousands of euros unless noted otherwise, and cells left empty mean that no data was reported for that period.

Revenue by region

Revenue grew in most regions, with the strongest increase recorded in the Nordics. Southern Europe was flat while one new market has not yet reported figures.

Region	Q1	Q2	Q3	Change
Nordics	1250	1410	1788	26.8%
Benelux	980	1015	1102	8.6%
Southern Europe	1430	1429	1431	0.1%
Eastern Europe	410	466		
Iberia		120	244	103.3%

Product lines

Subscriptions remain the largest line. Hardware revenue fell because of a supply shortage that is expected to ease next quarter.

Subscriptions and hardware

Product	Units	Price	Revenue
Basic plan	4210	9.50	39995
Team plan	1830	24.00	43920
Enterprise plan	212	310.75	65879
Starter kit	96	149.00	14304
Docking station		89.90	

Highlights

- Net revenue retention reached 112 percent
- Churn dropped to 2.1 percent per month
- The partner programme added 17 resellers
- Hardware backlog stands at 340 units

Outlook

We expect the fourth quarter to be the strongest of the year. The detailed forecast and assumptions are published in the forecast workbook and discussed in the board summary.

1. Close the Eastern Europe reporting gap by mid November
2. Restock the docking station inventory
3. Launch the annual plan discount campaign
